

### Pretty in Pink

Interior Designer Phyllis Harbinger of Cortlandt Manor (914-734-1383) designed this eye-popping pink and black polka-dot girl's room around the comforter that the mother, Linda Schaffer of Purchase, found for her daughter, Lauren.

"We put a spin on it, and made the headboard, dust ruffle, and awning window treatments to carry out the theme," says Harbinger. "Frou-frou curtains wouldn't have flown in this house," she says, noting that the house is "very contemporary, modern, and stream-lined." She adds, "The polka-dot awnings tie together the L-shaped windows while lending a sense of whimsy to the space." The locker drawers were found by Schaffer in SoHo.
